ASHISH GATTU

ARTIFICIAL INTELLIGENCE & MACHINE LEARNING ENGINEER

+91 70324 15999 ashishg2204@gmail.com Hyderabad, Telangana github.com/AshishGattu linkedin.com/in/ashish-gattu ag-portfolio.app

PROFESSIONAL SUMMARY

AI & ML Engineer with a strong foundation in Deep Learning, Computer Vision and Agentic AI, building production systems: an LLM-powered insurance document-extraction platform on Azure and real-time video analytics for US retail stores. Hands-on with full-stack web development, RAG chatbots and multi-agent architectures; national 3rd-place hackathon finish and a published patent. Focused on building reliable, production-grade AI systems that solve real business problems.

TECHNICAL SKILLS

AI & ML	Supervised & Unsupervised Learning, Deep Learning, Transfer Learning, NLP, Computer Vision, Object Tracking, LLMs, LangChain, RAG, Agentic AI
Frameworks	PyTorch, TensorFlow, Keras, YOLOv5, Scikit-learn, OpenCV, NLTK, SpaCy, Hugging Face Transformers
Cloud	Azure AI Document Intelligence, Azure OpenAI (GPT-5 mini)
Languages	Python, JavaScript, Node.js, React, HTML, CSS
Data & Tools	Pandas, NumPy, Matplotlib, Seaborn, Git, GitHub, Jupyter, Google Colab, VS Code, Figma

EXPERIENCE

AI Engineer — Jul 2026 – Present

Maaze Underwriting Solutions

Insurance Document Extraction Platform

- Built a web platform on Azure AI Document Intelligence and GPT-5 mini that ingests varied-layout insurance documents via HTTP and email.
- Extracted and mapped text to structured JSON aligned with form-specific schemas per insurance form type.
- Added an LLM assistant that reads the ingested documents and answers user questions about them.

Real-Time Retail Video Analytics – US Store Franchise

- Built real-time person detection and tracking with YOLOv5 on in-store camera footage, generating crowd-density heatmaps.
- Delivered store analytics including dwell time, fulfilment time and total footfall in/out.

AI Intern — Dec 2024 – Sep 2025

Srinishtha Technologies · Hyderabad, India

- Developed UI and backend for a scalable EdTech platform supporting 80+ branches across Telangana.
- Built RAG-based conversational AI chatbots for E-Commerce, automating customer interactions end-to-end.
- Built automation tools for client projects that replaced manual, repetitive steps in day-to-day operations.

PROJECTS

HROps – HR Automation Assistant — Multi-Agent System — Oct 2025 – Present

- Implemented a multi-agent HR automation system streamlining recruitment, onboarding and compliance workflows.
- Engineered 4 specialised agents for resume screening, onboarding, compliance and communications.

WealthMaps – Fueled Contest 2.0 — National 3rd Place — 2024

- Built a full-stack app aggregating US property data, with AI-driven report generation powered by Llama.
- Secured 3rd place nationally by delivering a high-performance real-estate data accessibility solution.

Parquik & Get-Fit — IoT & CV — Bhopal & Kerala Hackathons — 2023 – 2024

- **Parquik:** Smart parking ecosystem using Computer Vision — awarded Most Innovative Project.
- **Get-Fit:** Arduino-based fitness tracker with real-time movement feedback; Top 10 nationally.

PATENT PUBLICATION

Smart Stream – Water Flow Detection System — App. No. 202641011870-A | Indian Patent Office — 2026

IoT system using water-flow, pressure and temperature sensors on faucets and showerheads, with an Arduino and ESP32 Wi-Fi module streaming real-time consumption data to cloud storage and a web app for per-device usage analytics, supporting sustainable water management.

EDUCATION

B.Tech – AI & Machine Learning — CGPA: 3.4 / 4.0
Woxsen University · 2022 – 2026

Higher Secondary – PCM — 90%
Narayana Junior College · 2020 – 2022

High School – CBSE — 94%
St. Andrews School · 2018 – 2020

LANGUAGES

Fluent: English, Hindi, Telugu **Beginner:** German

CERTIFICATIONS

Introduction to TensorFlow for AI, ML & Deep Learning — *Coursera* · *View Certificate*

Introduction to Web Development — *Coursera* · *View Certificate*

ACTIVITIES & LEADERSHIP

- Senior Executive, Technology Club (2023–24)
- Project Sector Executive, COE MetaTech (2023–24)
- Event Manager, Udgham Hackathon 2025
- Organizer, MARK XXIV National Hackathon (2023)
- Ajman University Winter Study Tour (2023)
